January 18

Here's an idea. Change the bloody laws. What the hell is happening to Victoria? It's sinking into a state of anarchy! How we were voted the country's most liveable city is beyond me. Crime is at an all time high, drug use is out of control and now these stupid clowns going out of their way to create havoc. Clean them out. They aren't in need of charity - they need a kick up the arse and slapped with a fine for littering. Let's see how much longer they'll call Flinders their home. Victoria : The State of Anarchy. That should be our new slogan.

What does it say about a rich nation that it has 100,000 homeless people? That money is being wasted elsewhere. In a scene reminiscent of a desperately poor city, homeless people are sleeping on the street in beautiful Melbourne. But this is happening all over our country as people, including families, are sleeping in cars, on the street, or under bushes.

Where are the government's priorities? A billion dollars for climate change, $50bn for submarines that will be obsolete before they are delivered, thousands of refugees sleeping in comfortable apartments, thanks to taxpayers. It's a disgrace.
